Work Completed

This week we looked for different project ideas . we shortlisted three projects : game learning app and blurgaurd. Studied workflow ,how they will work and what all functionalities and unique things we can do with these projects .

Then we prepared pitch for both projects and showed them to our our project coordinator and we finalized blurgaurd due to its impact and uniqueness. Blurgaurd was selected because it was solving a real world problem and had a lot of scope in improvement in real time solutions.

Outcome

Initial stage of selection of project and its analysis successfully completed.

Next Planned Work

To Work on deeper functionalities of blurguard , working of system, requirement analysis and making plan and ganttchart for workflow of our project.
